Get a Quote for WooCommerce Plugin

Overview

Enhance your WooCommerce store's functionality with the "Get a Quote" plugin. This plugin adds a convenient "Get a Quote" button to your Product Detail Pages (PDP), allowing customers to easily request quotes for specific products. Upon clicking the button, users are redirected to a dedicated page featuring a customized Contact Form 7 for a seamless quote submission process.

Features

Prominent Button Placement:
> Strategically placed "Get a Quote" button on Product Detail Pages for quick customer access.

User-Friendly Redirection:
> Smooth redirection to a dedicated page with a customized Contact Form 7 for quote submissions.

Detailed Product Information:
> Display of selected product details (Product ID, image, title) at the top of the Contact Form 7.

Effortless Quote Submission:
> Streamlined form submission process through the integrated Contact Form 7.

Automatic Product Details in CF7 Email:
> Inclusion of selected product details in the Contact Form 7 email for comprehensive inquiry responses.

Customization Options:
> Flexibility to customize the appearance of the "Get a Quote" button and associated form.

Responsive Design:
> Optimized for a seamless user experience across various devices.

Integration Compatibility:

Compatible with Contact Form 7 for easy integration into your existing
WordPress setup.

Installation

Download the plugin zip file.
Upload and activate the plugin through the WordPress admin panel.
Customize plugin settings as needed.

Usage

Navigate to your WooCommerce Product Detail Page (PDP).
Click on the "Get a Quote" button.
Fill out the Contact Form 7 with user details.
Submit the form to receive a quote.

Customization

Modify the appearance and behavior of the plugin through the settings panel in the
WordPress admin.
